PREPARING TO MOVE

De Lome Acting on the Presumption That He Is Not Wanted.

CABLED TO FOREIGN POWERS.

State Department In Possession of the Original Document and Is Acting Without Regard to Minister's Resignation—Madrid Press Comment—News at Havana.

WASHINGTON, Feb. 11.—Senator De Lome is acting on the presumption that his services are closed and is preparing his household for departure. No time has been fixed for his leaving. For the present he continues to exercise his functions as minister. On his being relieved, the first secretary of the legation, Senor Pablo Soler, will be charged d'affairs ad interim. The latter has had long experience in diplomacy, and at one time was confidential secretary to the late premier of Spain, Senor Canovas. It is not expected that the service as charge will be more than temporary, as a new minister, chosen from Premier Sagasta's Liberal adherents, is expected to be named at an early day.

While the foregoing gives the probable action of the Spanish authorities, the results may be considerably affected by the steps taken by the state department. The department is acting without reference to the minister's resignation, which he cabled Tuesday night. It shaped its action after receiving the original letter written by De Lome to Canovas. This original came into the possession of the department Wednesday, and was carried by Judge Day, assistant secretary of state, to the minister's residence. The meeting could not have been other than painful. There was no denial on the part of the minister. When Judge Day learned direct from the minister that the letter was genuine, the cablegram to General Woodford was sent. These instructions will go before the Madrid authorities along with the minister's resignation.

PRESS COMMENT.

What Madrid Newspapers Say of the De Lome Incident.

MADRID, Feb. 11.—The papers all discuss the De Lome incident this morning. El Heraldo de Madrid deprecates the incident, but remarks: "Here we are obliged to endure not confidential complaints like Senor De Lome's, but attacks and accusations of every kind, in American official documents and in congress, upon our country, generals, government and even our highest representatives of state."

El Epoca says: "Senor De Lome's resignation having been accepted, the international question disappears. Nevertheless the Cuban insurgents have succeeded in chasing from Washington a representative of Spain who has always displayed great zeal to prevent filibustering expeditions, but they have done so by tricks only employed by the clients of penitentiaries."

Cabled to Foreign Governments. WASHINGTON, Feb. 11.—The De Lome letter has already attracted the attention of foreign governments and appears to be regarded by them as an important factor in the general Cuban question. Some of the foreign ministers at Washington have advised their governments fully on the occurrence. These were misleading at the outset, for members of the diplomatic corps assumed that the letter was a forgery and some advice conveyed this view of the case. Now that its genuineness has been established the facts have been sent to most of the foreign capitals. No incident in recent days has caused such a sensation in the ranks of the diplomatic corps. There is universal regret among the ambassadors and ministers who have been brought into close social relations with Senor De Lome.

"The best doctors in Kansas City told me that unless I went to the hospital and had an operation, performed I could not live," writes Miss Brodie Galloway, of Wilder, Johnson Co., Kans. "I had ulceration and weakness, and each month I would get down in bed and suffer severely for twenty-four hours. I could not keep anything on my stomach for five minutes at a time. I have taken four bottles of your 'Favorite Prescription,' and am now well. I owe it all to your medicine. I can cheerfully recommend it to any suffering as I did."

PITTSBURG FIRE.

Eleven Persons Dead and Twenty-Seven Are Missing.

PITTSBURG, Feb. 11.—Eleven people dead, 27 missing and 10 injured and property loss of \$1,500,000, with about \$1,000,000 insurance, is the awful record of the big fire at the Chautauqua Ice company. Following is a revised list of the dead and missing: Dead: POLICE LIEUTENANT A. J. BERRY. JOHN McLAN A. W. L. LAM SCOTT, JR. STANLEY STITZ. JOHN DWYER. GEORGE LOVELESS. WILLIAM SMITH. ALBERT A. WOLF. THOMAS CLAFFEY. WILLIAM L. WALSHBARENSTEIN. AN UNKNOWN, supposed to be the youngest son of the president of the Chautauqua Ice company.

The missing: George Newman, fire inspector of the Philadelphia Gas company; William Doran, William Finch, Edward Donnelly, Christ Schriver, James P. Morrison, Professor James Moxan, organist Evangelical Lutheran church, Bruchton, Pa.; John Gerry, George McDonald, Jack Farrell and Samuel McLaughlin.

Jacob Booth and a party of four companions who were in a saloon on Penn avenue when the wall crashed the building are missing and supposed to be under the debris.

Mrs. Mary McFadden, with her family of eight children are all supposed to be under the fallen walls. They lived in a house on Mulberry alley, which was crushed. Nothing has been seen of them since the explosion and it is believed all are dead.

All day yesterday and today firemen, policemen and other city employees have been working at the risk of their lives in clearing away the debris. The work will be continued without cessation until it is known no bodies remain buried.

Mayor Ford last evening realizing that some of the worst features of the calamity are yet to come so far as the dead and heads of families are concerned and that many will be in need of aid issued a public letter suggesting subscriptions from the citizens for distribution among the needy victims.

There is no reason to change last night's estimate of the aggregate loss of property. It is difficult to get figures, but insurance experts say that it will be at least \$1,500,000 and may be more.

The agents and local committees at New York and Cincinnati were directed to close every book store pertaining to their establishments which is not on a paying basis.

Dividends to annual conferences were fixed at \$50,000, of which \$70,000 is from the western and \$10,000 from the eastern concern. Salaries for bishops and editors were fixed the same as last year.

PROHIBITION KANSAS.

Profits and Stock on Hand of One Vineyard Company.

TOPEKA, Feb. 11.—Owing to the strict provisions of the Kansas prohibitory liquor law, it was not supposed that there was any extensive business being conducted in the manufacture of wine in the state, but the Doniphan Vineyard company has reported to the secretary of state that it has on hand wines worth \$23,771.21, and that last year its owners divided among themselves in profits \$3,538.24. The wine is supposed to be used exclusively for medical and scientific purposes.

GOEBEL ELECTION CASE.

Kentucky Senate Passes the Measure—Excitement High Throughout the State.

FRANKFORT, Ky., Feb. 11.—The state senate by a vote of 20, sufficient to pass a bill over a veto, yesterday passed the Goebel elections or "force" bill and sent it to the house, where it is nearly sure to go through in time to get a veto from the governor back and passed upon before an adjournment. This has created the wildest political excitement here and throughout the state, the Republicans admitting that if the bill becomes a law they can never carry the state or an important election therein again.

THE TRIAL OF M. ZOLA

His Unequal Conflict In a French Court of Justice.

WITNESSES FORCED TO THE BAR

Zola's Attorney Fighting to Impress the Jury With the Unfairness Practiced In the Dreyfus and Esterhazy Trials—Proceedings Are Sent to the German Emperor.

PARIS, Feb. 11.—The excitement heightens daily over the outcome of the unequal conflict between two angry parties, one anxious that the chosé judge, whether legal or not, should remain intact, and the other that law and justice should be respected even at the expense of the chosé judge.

The latter party is a very small minority, in a strange and pathetic predicament, for while, unless it can prove injustice in the Dreyfus and Esterhazy cases, M. Zola must be condemned, the court will not allow him the means to prove the injustice. M. Laborie, therefore, is fighting to impress the jury with the unfairness of the whole proceedings, looking to the attitude of the general public on the case. However, it is evident that he has a difficult task before him.

The chief interest yesterday centered in General Pellieux's statement. He spoke for 20 minutes and was listened to in silence until he referred to the forgeries, when the audience indulged in tumultuous conflicting comments. His statements produced a profound impression, which, however, was partially destroyed by M. Laborie's and M. Clemenceau's subsequent examination.

The feature of the day's proceedings was the pertinacity with which M. Laborie forced to the witness bar prominent men with a view of convincing the jury of the existence of a secret document.

In addition to the judges and officials of the court martial that tried Dreyfus no fewer than six members of the Dapuy cabinet, including M. Dapuy, Guerin and Dovel, were put upon the stand.

After retired after saying nothing, the judge refusing them permission to touch the Dreyfus case. The procession became mirthful, but M. Laborie gained his point. It is impossible not to be convinced that Dreyfus was convicted on a secret document.

There were some demonstrations on the streets last night but nothing serious occurred. After each day's proceedings a report of the case is telegraphed to Emperor William.

YELLOWSTONE PARK.

The Interior Department Seeking to Enlarge It by One-Half.

WASHINGTON, Feb. 11.—Senator Hansbrough, at the instance of the secretary of the interior, has introduced a bill for the enlargement of Yellowstone National park so as to increase the area from 3,312 square miles to 6,566 square miles. Additions are made on the east, the south and the northwest of the park.

The lands included in the various additions are all mountainous and most of them are heavily wooded. The southernmost addition includes Jackson's Hole, which Superintendent Young says, in recommending the addition, is a valuable winter resort for game. He estimates that 10,000 elk usually winter there. The proposed northwest reservation is the resort of the most daring poachers on the elk and buffalo in the park. Colonel Young says the extension would supply such natural boundaries that with only 18 miles of fencing the park game could be effectually enclosed and protected from poachers.

Senate and House.

WASHINGTON, Feb. 11.—The senate yesterday had under consideration the Indian appropriation bill. The reading of the bill was completed and all the committee amendments adopted, but adjournment was held before a final vote was taken. The house filibustered all day over two bills of minor importance, one being on the issue of a duplicate check and the other to make Rockland, Me., a support of entry. Without reaching a vote the house adjourned until Monday.

To Protect Our Coast Trade.

WASHINGTON, Feb. 11.—The senate has passed a bill amending the navigation laws in important particulars affecting the coasting trade of this country. The bill is of general application, but is intended especially to prevent Canadian vessels from securing an undue share of the carrying business between Alaska and other American ports. It will prevent Canadians going part of our coasting trade.

COUNTY SEAT WAR ENDED.

Handsome Courthouse Presented to Fulton County.

LEWISTON, Ill., Feb. 11.—Fulton county probably received the largest gift that was ever given to a county, when the Lewiston building committee turned over to the board of supervisors the fine new courthouse, built by subscription of Lewiston citizens, to end the long and bitter county seat fight that has been going on between this place and Canton for more than half a century. The presentation speech on behalf of the Lewiston building committee was made by Miss Nellie Barrero of Canton, a granddaughter of Colonel Lewis W. Ross, for whom Lewiston was named three quarters of a century ago. Chairman Marshall of the county board made the speech of acceptance, and thus the courthouse became public property, and ended the most bitter and famous of all the county seat contests in the history of Illinois. The building, which is to be furnished by Fulton county, will cost, when fully equipped, about \$70,000.

MURDERED IN HIS ROOM.

Circus Fakir's Head Crushed With a Hatchet—Robbery the Cause.

LANSING, Mich., Feb. 11.—Roderique C. Laussen, a somewhat dissolute Frenchman, about 25 years of age, was found murdered in his room over a feed store here. The walls of the room were spattered and the floor over which the murderer had dragged his victim was saturated with the latter's blood. The skull had been crushed with a hatchet or sharp piece of wood and the head was beaten almost to a pulp.

Young Laussen was known as a circus fakir. He had quarreled with his father and seldom visited him. The proprietor of the feed store heard a pounding noise upstairs, but thought nothing of the incident. The murdered man had exhibited a roll of bills not long ago, but nothing was found excepting an empty bloody pocketbook lying on the floor.

NEW YORK ASSEMBLY.

Senator Murphy Censured—Resolution Regarding McKinley.

ALBANY, Feb. 11.—In the assembly yesterday when the Weeks resolution asking for the resignation of United States Senator Murphy was called up, Mr. Weeks offered a substitute which censured, but does not demand resignation. A protracted discussion was precipitated and Mr. Oliver (Dem., New York city) introduced a substitute calling for the impeachment of President McKinley for aiding in the election of United States Senator Hanna.

The resolution censuring Senator Murphy was finally adopted by a vote of 79 ayes and 63 nays.

CRAWFORDSVILLE, Ind., Feb. 11.—In tearing down a log cabin on his farm Thomas McGaugh came across to patent deeds issued to his grandfather in 1820 conveying to him large tracts of government lands in this county. THE DEMOCRAT'S INDORSEMENT.

The local democratic daily pays a deserved compliment to Mayor Balsey and incidentally to the present republican administration, of which the mayor is the official leader. It says:

"Mayor Balsey has been a resident of Seymour for many years. He has always been a zealous advocate of every enterprise that promised to redound to the advantage of his city, and throughout his official career has undertaken to dignify his office on every public occasion."

The Democrat not only compliments the mayor and the administration of the affairs of the city under him but chides and reads a lecture to those democrats who have sought to criticize the present republican city officials. In speaking of this democratic criticism he says:

"It was ever thus. Those who have not the responsibility of office and the democrats have not had such responsibility since Capt. Balsey has been mayor are the first to condemn, and it matters little what policy an official may pursue the result is the same."

Though justly complimenting Mayor Balsey as an official and as a citizen, the Democrat is wrong in concluding that he has suddenly taken a notion to change his residence. Capt. Balsey stated to the writer almost a year ago that he had traded for residence property in Indianapolis and might move to it as soon after his official term expired as he could arrange so to do. Though that is true he has an abiding interest in the welfare of Seymour, and in the welfare of the people here, and of the continued success and usefulness of the republican party. His declining to be a candidate is wholly voluntary on his part. Seymour republicans are proud of the record of the present republican administration which the Democrat so generously compliments.

CALL FOR REPUBLICAN PRIMARY.

The republicans of the city of Seymour, Indiana will hold a primary election on Tuesday the 8th day of March. Polls will be opened at one o'clock p. m. and will close promptly at 8 o'clock p. m. There will be one voting place in each ward, place to be designated later. The following officers will be voted for: Mayor, marshal, city clerk, city treasurer, city judge and one councilman from each ward of the city. All persons wishing to be candidates for any of the offices must notify the city chairman not later than the 1st day of March, 1898.

By order of the City Committee.
W. H. BURKLEY, Chairman.
C. A. DAY, Secy.

The local democrats are talking about the advisability of naming a state ticket.

Some members of the state board of education have learned that an educational trust in Indiana can not exist much longer. So they interview themselves and report that a "compromise" will probably be agreed upon. There is much secrecy about the actions of these servants of the people.

Colonel Kit Chinn.

A St. Louis footpad attempted to hold up Colonel Kit Chinn of Kentucky one night recently, and the aforesaid footpad hasn't done anything since. If there is a man on earth whom footpads should shun as a temperate man shuns a blind tiger, that man is Kit Chinn. He is a born fighter, and his favorite weapons are the ones which the Creator endowed him with at his birth. He is one of the few men in Kentucky who hold the use of pistol or knife in contempt and is totally devoid of fear. He has fought a wildcat in the open with nothing but his bare knuckles and come out winner, and it is said that upon one occasion he offered to fight a rattlesnake and give him the first bite.—Glasgow (Ky.) News.

The First Steam Power.

The power of steam was known to Hero of Alexandria, who exhibited what seems from the description to have been a small steam engine to Ptolemy Philadelphus and his court about 150 B. C. Ptolemy describes a small boat, built by a "magician" of Rome, which moved by means of a wheel, "driven by a pot of hot water." Watt's invention of a rotary steam engine was patented in 1769. The first railway locomotive was built by Trevithick in 1804. The first practical locomotive was perfected by Stephenson in 1825. As early as 1707 Denys Papin built a model of a steamboat, which was destroyed by a mob of boatmen. The first practical steamboat was built by William Blymington in 1802. In 1803 Robert Fulton, in connection with Chancellor Livingston, built a steamboat which was tried on the Seine. In 1807 the Clermont began trips from New York to Albany.

OHIO STATE PRISON.

House Investigating Committee Has Commenced Its Work.

COLUMBUS, O., Feb. 11.—The house penitentiary investigating committee commenced its work yesterday at the penitentiary. The committee elected Judge Reynolds of Lake, secretary. Mr. Davis is chairman. It is very probable that the committee will not be enlarged to eight members, as provided for in Mr. McGlinchey's resolution.

Mr. Joyce of Guernsey was in the speaker's chair when the resolution was adopted, and although it only received 41 affirmative votes, he declared it adopted. Speaker Mason takes a different view of the matter, maintaining that the resolution involves the expenditure of money, and, therefore, requires a constitutional majority for adoption. He will therefore not appoint the additional members.

"PRINCE OF TRINIDAD."

Baron Harden Hickey Suicides in an El Paso (Tex.) Hotel.

EL PASO, Tex., Feb. 11.—Baron Harden Hickey, better known as the Prince of Trinidad, committed suicide at the Pierson hotel in this city yesterday. Servants in the hotel made the discovery, and the indications were that he died from drugs taken with suicidal intent. He left a letter addressed to his wife at Corona, Cal., in which he stated that he was going to die. Deceased was married to a daughter of John H. Flagler of New York, the Standard Oil magnate, in 1891. Baron Hickey attained notoriety some time ago when he took possession of Trinidad island and proclaimed himself military dictator.

Deafness Cannot be Cured By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

CHURCH NOTES.

The revival meetings at the Methodist church are still increasing in interest and power. Many were unable to gain admission last night by 7 o'clock and the services lasted until 11 o'clock. Many came forward and confessed Christ and four united with the church. Evangelist Reed preached another powerful sermon which created great interest and brought conviction to many hearts. Let the unconverted come tonight and occupy the front seats. Now is your time to be saved. Don't neglect it.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mis take the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy; increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

At druggist. Trial bottle 10 cents.

Hints to Young Photographers.

To squeeze prints to a ferrotype plate in order to make a gloss finish, have the plate perfectly clean and free from grease; it is better to wash it with soap and warm water each time it is used. Turn a little benzine on the surface of the plate and rub it thoroughly with a soft cloth, repeating the operation if the plate looks streaked. Let cold water run over the surface of the plate and then lay the wet prints face down upon it, and roll them down with a rubber roller until all moisture has been forced out. A piece of blotter should be placed over the picture to absorb the water. Before the prints are toned they can be trimmed, and before they are removed from the plate a coat of thin paste can be applied to the back, and they can be taken from the plate and mounted at once. If they are mounted dry, a thin coat of paste should be applied to the back of the picture, but if they are to be burnished after mounting, they may be damp when mounted. Harper's Bound Table.

AN ABLE PRACTICAL JOKE.

It Created Considerable Excitement in a University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special train, arriving at Cambridge station about 2:10 o'clock. Be prepared with escort and reception as far as time allows."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public belated. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hook they might have lived in literature.

Greeks as Fighters.

Smolenski had placed a battery of mountain guns on a plateau overlooking the village of Velestino, and along the base of this plateau was a battalion of Evzones, sheltered by the position of the ground and by intrenchments. The battery on the plateau played on the Turkish advance with great effect, and the order was given by the Turkish commander to charge it. The Turkish infantry swung clear, and the cavalry, led by a young officer, came on in column, first at the trot and then at a swinging gallop. It seemed a mad undertaking for cavalry to charge a battery of well served artillery planted on the crest of a long, steep slope.

The brave horsemen were met with salvos of shells which plowed through their ranks. Then suddenly uprose the Evzones from their partially hidden cover and poured upon them volley after volley. No troops could withstand such fire, and, completely broken, the Turkish horsemen turned and sought shelter in the woods in the neighborhood of Risomylos. — "With the Greeks in Thessaly," by W. Kinnaird Rose.

You Bet It Has.

"What hez this Democratic free trade congress done?" asked the rural stump speaker in strident tones of indignation. As he paused for a reply a man with a big double bass voice answered, "It hez done the American people."—Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases, which is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys; back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five contents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical cyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.

PREPARING TO MOVE

De Lome Acting on the Presumption That He Is Not Wanted.

CABLED TO FOREIGN POWERS.

State Department In Possession of the Original Document and Is Acting Without Regard to Minister's Resignation—Madrid Press Comment—News at Havana.

WASHINGTON, Feb. 11.—Senator De Lome is acting on the presumption that his services are closed and is preparing his household for departure. No time has been fixed for his leaving. For the present he continues to exercise his functions as minister. On his being relieved, the first secretary of the legation, Senor Pablo Soler, will be charged with affairs ad interim. The latter has had long experience in diplomacy, and at one time was confidential secretary to the late premier of Spain, Senor Canovas. It is not expected that the service as charge will be more than temporary, as a new minister, chosen from Premier Sagasta's Liberal adherents, is expected to be named at an early day.

While the foregoing gives the probable action of the Spanish authorities, the results may be considerably affected by the steps taken by the state department. The department is acting without reference to the minister's resignation, which he cabled Tuesday night. It shaped its action after receiving the original letter written by De Lome to Canovas. This original came into the possession of the department Wednesday, and was carried by Judge Day, assistant secretary of state, to the minister's residence. The meeting could not have been other than painful. There was no denial on the part of the minister. Judge Day learned direct from the minister that the letter was genuine, the cablegram to General Woodford was sent. These instructions will go before the Madrid authorities along with the minister's resignation.

PRESS COMMENT.

What Madrid Newspapers Say of the De Lome Incident.

MADRID, Feb. 11.—The papers all discuss the De Lome incident this morning. El Herald de Madrid deplores the incident, but remarks: "Here we are obliged to endure not confidential complaints like Senor De Lome's, but attacks and accusations of every kind, in American official documents and in congress, upon our country, generals, government and even our highest representatives of state."

El Epoca says: "Senor De Lome's resignation having been accepted, the international question disappears. Nevertheless the Cuban insurgents have succeeded in chasing from Washington a representative of Spain who has always displayed great zeal to prevent filibustering expeditions, but they have done so by tricks only employed by the clients of penitentiaries."

Cabled to Foreign Governments. WASHINGTON, Feb. 11.—The De Lome letter has already attracted the attention of foreign governments and appears to be regarded by them as an important factor in the general Cuban question. Some of the foreign ministers at Washington have advised their governments fully on the occurrence. These were misleading at the outset, for members of the diplomatic corps assumed that the letter was a forgery and some advice conveyed this view of the case. Now that its genuineness has been established the facts have been sent to most of the foreign capitals. No incident in recent days has caused such a sensation in the ranks of the diplomatic corps. There is universal regret among the ambassadors and ministers who have been brought into close social relations with Senor De Lome.

The woman who wears an armor of good health protects herself against almost all the ordinary ills and troubles that beset her sex. The woman who takes proper care of the health of her womanly self, who is careful that the organs that constitute womanhood are always well and strong, will be happy in her wifehood, and capable in her motherhood. The best and most used of all medicines for women is Dr. Pierce's Favorite Prescription. It acts directly upon the delicate feminine organism. It makes it strong and healthy. It cures all weakness and disease. It prepares a woman for her greatest mission, motherhood. It does away with the usual discomforts of the expectant period. It insures the health of baby and makes its advent easy and almost painless. Over 90,000 women have testified to its wonderful virtues. More of it is sold than of all other medicines for this purpose combined. Women who want to know more about it should write to its discoverer, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

"The best doctors in Kansas City told me that unless I went to the hospital and had an operation performed I could not live," writes Miss Josephine Galloway, of Wilder, Johnson Co., Kans. "I had ulceration and weakness, and each month I would get down in bed and suffer severely for twenty-four hours. I could not keep anything on my stomach for five minutes at a time. I have taken four bottles of your 'Favorite Prescription' and am now well. I owe it all to your medicine. I can cheerfully recommend it to any suffering as I did."

Dr. Pierce's Pleasant Pellets are a safe, sure, speedy and permanent cure for constipation. They never gripe. One is a gentle laxative, and two a mild cathartic. All medicine dealers.

PITTSBURG FIRE.

Eleven Persons Dead and Twenty-Seven Are Missing.

PITTSBURG, Feb. 11.—Eleven people dead, 27 missing and 10 injured and property loss of \$1,500,000, with about \$1,000,000 insurance, is the awful record of the big fire at the Chautauqua Ice company. Following is a revised list of the dead and missing. Dead: POLICE LIEUTENANT A. J. BERRY. JOHN McHAN A. W. L. SMITH, JR. STANLEY STITZ. JOHN DWYER. GEORGE LOVELESS. WILLIAM SMITH. ALBERT A. WOLF. THOMAS CLAFFEY. WILLIAM L. WALLSHARENSTEIN.

At PITTSBURG, supposed to be the youngest son of the president of the Chautauqua Ice company. The missing: George Newman, fire inspector of the Philadelphia Gas company; William Doran, William Finch, Edward Donnelly, Christ Schriver, James P. Morrison, Professor James Moxan, organist Evangelical Lutheran church, Brushport, Pa.; John Gerry, George McDonald, Jack Farrell and Samuel McLaughlin.

Jacob Booth and a party of four companions who were in a saloon on Penn avenue when the wall crashed the building are missing and supposed to be under the debris.

Mrs. Mary McFadden, with her family of eight children are all supposed to be under the fallen walls. They lived in a house on Mulberry alley, which was crushed. Nothing has been seen of them since the explosion and it is believed all are dead.

All day yesterday and today firemen, policemen and other city employees have been working at the risk of their lives in clearing away the debris. The work will be continued without cessation until it is known no bodies remain buried.

Mayor Ford last evening realizing that some of the worst features of the calamity are yet to come so far as the dead and heads of families are concerned and that many will be in need of aid issued a public letter suggesting subscriptions from the citizens for distribution among the needy victims.

There is no reason to change last night's estimate of the aggregate loss of property. It is difficult to get figures, but insurance experts say that it will be at least \$1,500,000 and may be more.

METHODIST BOOK COMMITTEE.

CINCINNATI, Feb. 11.—At a meeting of the general book committee of the Methodist Episcopal church yesterday reports of subcommittees were made and acted upon. The agents and local committees at New York and Cincinnati were directed to close every book store pertaining to their establishments which is not on a paying basis.

Dividends to annual conferences were fixed at \$50,000, of which \$70,000 is from the western and \$10,000 from the eastern concern. Salaries for bishops and editors were fixed the same as last year.

PROHIBITION KANSAS.

Profits and Stock on Hand of One Vineyard Company.

TOPEKA, Feb. 11.—Owing to the strict provisions of the Kansas prohibitory liquor law, it was not supposed that there was any extensive business being conducted in the manufacture of wine in the state, but the Doniphan Vineyard company has reported to the secretary of state that it has on hand wines worth \$23,771.21, and that last year its owners divided among themselves in profits \$3,588.24. The wine is supposed to be used exclusively for medical and scientific purposes.

GOEBEL ELECTION CASE.

Kentucky Senate Passes the Measure—Exemption High Throughout the State.

FRANKFORT, Ky., Feb. 11.—The state senate by a vote of 20, sufficient to pass a bill over a veto, yesterday passed the Goebel elections or "force" bill and sent it to the house, where it is nearly sure to go through in time to get a veto from the governor back and passed upon before an adjournment. This has created the wildest political excitement here and throughout the state, the Republicans admitting that if the bill becomes a law they can never carry the state or an important election therein again.

THE TRIAL OF M. ZOLA

His Unequal Conflict In a French Court of Justice.

WITNESSES FORCED TO THE BAR

Zola's Attorney Fighting to Impress the Jury With the Unfairness Practiced In the Dreyfus and Esterhazy Trials—Proceedings Are Sent to the German Emperor.

PARIS, Feb. 11.—The excitement heightens daily over the outcome of the unequal conflict between two angry parties, one anxious that the chose judge, whether legal or not, should remain intact, and the other that law and justice should be respected even at the expense of the chose judge.

The latter party is a very small minority, in a strange and pathetic predicament, for while, unless it can prove injustice in the Dreyfus and Esterhazy cases, M. Zola must be condemned, the court will not allow him the means to prove the injustice. M. Laborie, therefore, is fighting to impress the jury with the unfairness of the whole proceeding, looking to the attitude of the general public on the case. However, it is evident that he has a difficult task before him.

The chief interest yesterday centered in General Pellieux's statement. He spoke for 20 minutes and was listened to in silence until he referred to the forgeries, when the audience indulged in tumultuous conflicting comments. His statements produced a profound impression, which, however, was partially destroyed by M. Laborie's and M. Clemenceau's subsequent examination.

The feature of the day's proceedings was the pertinacity with which M. Laborie forced to the witness bar prominent men with a view of convincing the jury of the existence of a secret document.

In addition to the judges and officials of the court martial that tried Dreyfus no fewer than six members of the Dupuy cabinet, including M. Dupuy, Guerin and Dorelle, were put upon the stand.

All retired after saying nothing, the judge refusing them permission to touch the Dreyfus case. The procession became mirthful, but M. Laborie gained his point. It is impossible not to be convinced that Dreyfus was convicted on a secret document.

There were some demonstrations on the streets last night but nothing serious occurred. After each day's proceedings a report of the case is telegraphed to Emperor William.

YELLOWSTONE PARK.

The Interior Department Seeking to Enlarge It by One-Half.

WASHINGTON, Feb. 11.—Senator Hansbrough, at the instance of the secretary of the interior, has introduced a bill for the enlargement of Yellowstone National park so as to increase the area from 3,312 square miles to 5,066 square miles. Additions are made on the east, the south and the northwest of the park.

The lands included in the various additions are all mountainous and most of them are heavily wooded. The southernmost addition includes Jackson's Hole, which Superintendent Young says, in recommending the addition, is a valuable winter resort for game. He estimates that 10,000 elk usually winter there. The proposed northwest reservation is the resort of the most daring poachers on the elk and buffalo in the park. Colonel Young says the extension would supply such natural boundaries that with only 18 miles of fencing the park game could be effectually enclosed and protected from poachers.

Senate and House.

WASHINGTON, Feb. 11.—The senate yesterday had under consideration the Indian appropriation bill. The reading of the bill was completed and all the committee amendments adopted, but adjournment was had before a final vote was taken. The house filibustered all day over two bills of minor importance, one being on the issue of a duplicate check and the other to make Rockland, Me., a suburb of Portland. Without reaching a vote the house adjourned until Monday.

COUNTY SEAT WAR ENDED.

Handsome Courthouse Presented to Fulton County.

LEWISTON, Ill., Feb. 11.—Fulton county probably received the largest gift that was ever given to a county, when the Lewiston building committee turned over to the board of supervisors the fine new courthouse, built by subscription of Lewiston citizens, to end the long and bitter county seat fight that has been going on between this place and Canton for more than half a century. The presentation speech on behalf of the Lewiston building committee was made by Miss Nellie Barrere of Canton, a granddaughter of Colonel Lewis W. Ross, for whom Lewiston was named three quarters of a century ago. Chairman Marshall of the county board made the speech of acceptance, and thus the courthouse became public property, and ended the most bitter and famous of all the county seat contests in the history of Illinois. The building, which is to be furnished by Fulton county, will cost, when fully equipped, about \$70,000.

MURDERED IN HIS ROOM.

Circus Fakir's Head Crushed With a Hatchet—Robbery the Cause.

LANSING, Mich., Feb. 11.—Roderique C. Lausson, a somewhat dissolute Frenchman, about 25 years of age, was found murdered in his room over a feed store here. The walls of the room were splattered and the floor over which the murderer had dragged his victim was saturated with the latter's blood. The skull had been crushed with a hatchet or sharp piece of wood and the head was beaten almost to a pulp.

Young Lausson was known as a circus fakir. He had quarreled with his father and seldom visited him. The proprietor of the feed store heard a pounding noise upstairs, but thought nothing of the incident. The murdered man had exhibited a roll of bills not long ago, but nothing was found excepting an empty bloody pocketbook lying on the floor.

The resolution censuring Senator Murphy was finally adopted by a vote of 79 ayes and 63 nays.

Seven hundred dollars' worth of diamonds and all the money Mrs. Pyne had were taken.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CHURCH NOTES.

The revival meetings at the Methodist church are still increasing in interest and power. Many were unable to gain admission last night by 7 o'clock and the services lasted until 11 o'clock. Many came forward and confessed Christ and four united with the church. Evangelist Reed preached another powerful sermon which created great interest and brought conviction to many hearts. Let the unconverted come tonight and occupy the front seats. Now is your time to be saved. Don't neglect it.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mis take the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial. At druggist. Trial bottle 10 cents.

Hints to Young Photographers.

To reequee prints to a ferrotype plate in order to make a gloss finish, have the plate perfectly clean and free from grease; it is better to wash it with soap and warm water each time it is used.

Turn a little benzine on the surface of the plate and rub it thoroughly with a soft cloth, repeating the operation if the plate looks streaked. Let cold water run over the surface of the plate and then lay the wet prints face down upon it, and roll them down with a rubber roller until all moisture has been forced out. A piece of blotter should be placed over the picture to absorb the water. Before the prints are toned they can be trimmed, and before they are removed from the plate a coat of thin paste can be applied to the back, and they can be taken from the plate and mounted at once. If they are mounted dry, a thin coat of paste should be applied to the back of the picture, but if they are to be burnished after mounting, they may be damp when mounted. Harper's Round Table.

AN ABLE PRACTICAL JOKE.

Created Considerable Excitement in a University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special train, arriving at Cambridge station about 2:10 o'clock. Be prepared with escort and reception as far as time allow."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public behind-hand. Flags were hung out and crowds gathered in the street. Dr. Coolson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hook they might have lived in literature.

Greeks as Fighters.

Smolenski had placed a battery of mountain guns on a plateau overlooking the village of Velesino, and along the base of this plateau was a battalion of Evzones, sheltered by the position of the ground and by intrenchments. The battery on the plateau played on the Turkish advance with great effect, and the order was given by the Turkish commander to charge it. The Turkish infantry swung clear, and the cavalry, led by a young officer, came on in column, first at the trot and then at a swinging gallop. It seemed a mad undertaking for cavalry to charge a battery of well served artillery planted on the crest of a long, steep slope.

The brave horsemen were met with salvos of shells which plowed through their ranks. Then suddenly arose the Evzones from their partially hidden cover and poured upon them volley after volley. No troops could withstand such fire, and, completely broken, the Turkish horsemen turned and sought shelter in the woods in the neighborhood of Risomylos. "With the Greeks in Thessaly," by W. Kinnaird Rosa.

You Get It Has.

"What has this Democratic free trade congress done?" asked the rural stump speaker in strident tones of indignation. As he paused for a reply a man with a big double bass voice answered: "It has done the American people."—Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to diseases or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the men of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical encyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.

PREPARING TO MOVE

Do Lome Acting on the Presumption That He Is Not Wanted.

CABLED TO FOREIGN POWERS.

State Department In Possession of the Original Document and Is Acting Without Regard to Minister's Resignation—Madrid Press Comment—News at Havana.

WASHINGTON, Feb. 11.—Senator Do Lome is acting on the presumption that his services are closed and is preparing his household for departure. No time has been fixed for his leaving. For the present he continues to exercise his functions as minister. On his being relieved, the first secretary of the legation, Senor Pablo Soler, will be charged d'affaires ad interim. The latter has had long experience in diplomacy, and at one time was confidential secretary to the late premier of Spain, Senor Canovas. It is not expected that the service as charge will be more than temporary, as a new minister, chosen from Premier Sagasta's Liberal adherents, is expected to be named at an early day.

While the foregoing gives the probable action of the Spanish authorities, the results may be considerably affected by the steps taken by the state department. The department is acting without reference to the minister's resignation, which he cabled Tuesday night. It shaped its action after receiving the original letter written by De Lome to Canovas. This original came into the possession of the department Wednesday, and was carried by Judge Day, assistant secretary of state, to the minister's residence. The meeting could not have been other than painful. There was no denial on the part of the minister. When Judge Day learned direct from the minister that the letter was genuine, the cablegram to General Woodford was sent. These instructions will go before the Madrid authorities along with the minister's resignation.

PRESS COMMENT.

What Madrid Newspapers Say of the De Lome Incident.

MADRID, Feb. 11.—The papers all discuss the De Lome incident this morning.

El Heraldo de Madrid deplors the incident, but remarks: "Here we are obliged to endure not confidential complaints like Senor De Lome's, but attacks and accusations of every kind, in American official documents and in congress, upon our country, generals, government and even our highest representatives of state."

El Epoca says: "Senor De Lome's resignation having been accepted, the international question disappears. Nevertheless the Cuban insurgents have succeeded in chasing from Washington a representative of Spain who has always displayed great zeal to prevent filibustering expeditions, but they have done so by tricks only employed by the clients of penitentiaries."

Cabled to Foreign Governments. WASHINGTON, Feb. 11.—The De Lome letter has already attracted the attention of foreign governments and appears to be regarded by them as an important factor in the general Cuban question. Some of the foreign ministers at Washington have advised their governments fully on the occurrence. These were misleading at the outset, for members of the diplomatic corps assumed that the letter was a forgery and some advised conveyed this view of the case. Now that its genuineness has been established the facts have been sent to most of the foreign capitals. No incident in recent days has caused such a sensation in the ranks of the diplomatic corps. There is universal regret among the ambassadors and ministers who have been brought into close social relations with Senor De Lome.

The woman who wears an armor of good health protects herself against almost all the ordinary ills and troubles that beset her sex. The woman who takes proper care of the health of her womb and herself is always well and strong, will be happy in her wifehood and capable in her motherhood. The best and most used of all medicines for women is Dr. Pierce's Favorite Prescription. It acts directly upon the delicate feminine organism. It cures all weakness and disease. It prepares a woman for her greatest mission, motherhood. It does away with the usual discomforts of the expectant period. It insures the health of baby and makes its advent easy and almost painless. Over 90,000 women have testified to its wonderful virtues. More of it is sold than of all other medicines for this purpose combined. Women who want to know more about it should write to its discoverer, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

"The best doctors in Kansas City told me that unless I went to the hospital and had an operation performed I could not live," writes Miss Brookline Galloway, of Wilder, Kansas. "I had ulceration and weakness, and each month I would get down in bed and suffer severely for twenty-four hours. I could not keep anything on my stomach for five minutes at a time. I have taken four bottles of your 'Favorite Prescription' and am now well. I owe it all to your medicine. I can cheerfully recommend it to any suffering as I did."

Dr. Pierce's Pleasant Pellets are a safe, sure, speedy and permanent cure for constipation. They never gripe. One is a gentle laxative, and two a mild cathartic. All medicine dealers.

PITTSBURG FIRE.

Eleven Persons Dead and Twenty-Seven Are Missing.

PITTSBURG, Feb. 11.—Eleven people dead, 27 missing and 10 injured and property loss of \$1,500,000, with about \$1,000,000 insurance, is the awful record of the big fire at the Chautauqua Ice company. Following is a revised list of the dead and missing. Dead: POLICE LIEUTENANT A. J. BERRY. JOHN McHANE. W. L. SMITH, JR. STANLEY STITZ. JOHN DWYER. GEORGE LOVELESS. WILLIAM SMITH. ALBERT A. WOLF. THOMAS CLAFFY. WILLIAM L. WALLSHABENSTEIN. AN UNKNOWN, supposed to be the youngest son of the president of the Chautauqua Ice company.

The missing: George Newman, fire inspector of the Philadelphia Gas company; William Doran, William Finch, Edward Donnelly, Christ Schriver, James P. Morrison, Professor James Moxan, organist Evangelical Lutheran church, Brushport, Pa.; John Gerry, George McDonald, Jack Farrell and Samuel McLaughlin.

Jacob Booth and a party of four companions who were in a saloon on Penn avenue when the wall crashed the building are missing and supposed to be under the debris.

Mrs. Mary McFadden, with her family of eight children are all supposed to be under the fallen walls. They lived in a house on Mulberry alley, which was crushed. Nothing has been seen of them since the explosion and it is believed all are dead.

All day yesterday and today firemen, policemen and other city employees have been working at the risk of their lives in clearing away the debris. The work will be continued without cessation until it is known no bodies remain buried.

Mayor Ford last evening realizing that some of the worst features of the calamity are yet to come so far as the dead and heads of families are concerned and that many will be in need of aid issued a public letter suggesting subscriptions from the citizens for distribution among the needy victims.

There is no reason to change last night's estimate of the aggregate loss of property. It is difficult to get figures, but insurance experts say that it will be at least \$1,500,000 and may be more.

CINCINNATI, Feb. 11.—At a meeting of the general book committee of the Methodist Episcopal church yesterday reports of subcommittees were made and acted upon. The agents and local committees at New York and Cincinnati were directed to close every book store pertaining to their establishments which is not on a paying basis.

Dividends to annual conferences were fixed at \$50,000, of which \$70,000 is from the western and \$10,000 from the eastern concern. Salaries for bishops and editors were fixed the same as last year.

PROHIBITION KANSAS.

Profits and Stock on Hand of One Vineyard Company.

TOPEKA, Feb. 11.—Owing to the strict provisions of the Kansas prohibitory liquor law, it was not supposed that there was any extensive business being conducted in the manufacture of wine in the state, but the Doniphan Vineyard company has reported to the secretary of state that it has on hand wines worth \$23,771.21, and that last year its owners divided among themselves in profits \$9,538.24. The wine is supposed to be used exclusively for medicinal and scientific purposes.

GOEBEL ELECTION CASE.

Kentucky Senate Passes the Measure—Excitement High Throughout the State.

FRANKFORT, Ky., Feb. 11.—The state senate by a vote of 20, sufficient to pass a bill over a veto, yesterday passed the Goebel elections or "force" bill and sent it to the house, where it is nearly sure to go through in time to get a veto from the governor back and passed upon before an adjournment. This has created the wildest political excitement here and throughout the state, the Republicans admitting that if the bill becomes a law they can never carry the state or an important election therein again.

THE TRIAL OF M. ZOLA

His Unequal Conflict In a French Court of Justice.

WITNESSES FORCED TO THE BAR

Zola's Attorney Fighting to Impress the Jury With the Unfairness Practiced In the Dreyfus and Esterhazy Trials—Proceedings Are Sent to the German Emperor.

PARIS, Feb. 11.—The excitement heightens daily over the outcome of the unequal conflict between two angry parties, one anxious that the chose judge, whether legal or not, should remain intact, and the other that law and justice should be respected even at the expense of the chose judge.

The latter party is a very small minority, in a strange and pathetic predicament, for while, unless it can prove injustice in the Dreyfus and Esterhazy cases, M. Zola must be condemned, the court will not allow him the means to prove the injustice. M. Laborie, therefore, is fighting to impress the jury with the unfairness of the whole proceedings, looking to the attitude of the general public on the case. However, it is evident that he has a difficult task before him.

The chief interest yesterday centered in General Pellieux's statement. He spoke for 20 minutes and was listened to in silence until he referred to the forgeries, when the audience indulged in tumultuous conflicting comments. His statements produced a profound impression, which, however, was partially destroyed by M. Laborie's and M. Clemenceau's subsequent examination.

The feature of the day's proceedings was the pertinacity with which M. Laborie forced to the witness bar prominent men with a view of convincing the jury of the existence of a secret document.

In addition to the judges and officials of the court martial that tried Dreyfus no fewer than six members of the Dupuy cabinet, including M. Dupuy, Guerin and Duvell, were put upon the stand.

All retired after saying nothing, the judge refusing them permission to touch the Dreyfus case. The procession became mirthful, but M. Laborie gained his point. It is impossible not to be convinced that Dreyfus was convicted on a secret document.

YELLOWSTONE PARK.

The Interior Department Seeking to Enlarge It by One-Half.

WASHINGTON, Feb. 11.—Senator Hansbrough, at the instance of the secretary of the interior, has introduced a bill for the enlargement of Yellowstone National park so as to increase the area from 3,312 square miles to 5,556 square miles. Additions are made on the east, the south and the northwest of the park.

The lands included in the various additions are all mountainous and most of them are heavily wooded. The southernmost addition includes Jackson's Hole, which Superintendent Young says, in recommending the addition, is a valuable tourist resort for game. He estimates that 10,000 elk usually winter there.

The proposed northwest reservation is the resort of the most daring poachers on the elk and buffalo in the park. Colonel Young says the extension of the park limits by these additions would supply such natural boundaries that with only 18 miles of fencing the park game could be effectively enclosed and protected from poachers.

Senate and House.

WASHINGTON, Feb. 11.—The senate yesterday had under consideration the Indian appropriation bill. The reading of the bill was completed and all the committee amendments adopted, but adjournment was had before a final vote was taken. The house filibustered all day over two bills of minor importance, one being on the issue of a duplicate check and the other to make Rockland, Me., a suburb of entry. Without reaching a vote the house adjourned until Monday.

To Protect Our Coast Trade.

WASHINGTON, Feb. 11.—The senate has passed a bill amending the navigation laws in important particulars affecting the coasting trade of this country. It will prevent Canadians gaining part of our coasting trade.

COUNTY SEAT WAR ENDED.

Handsome Courthouse Presented to Fulton County.

LEWISTON, Ill., Feb. 11.—Fulton county probably received the largest gift that was ever given to a county, when the Lewiston building committee turned over to the board of supervisors the fine new courthouse, built by subscription of Lewiston citizens, to end the long and bitter county seat fight that has been going on between this place and Canton for more than half a century. The presentation speech on behalf of the Lewiston building committee was made by Miss Nellie Burrero of Canton, a granddaughter of Colonel Lewis W. Ross, for whom Lewiston was named three quarters of a century ago. Chairman Marshall of the county board made the speech of acceptance, and thus the courthouse became public property, and ended the most bitter and famous of all the county seat contests in the history of Illinois. The building, which is to be furnished by Fulton county, will cost, when fully equipped, about \$70,000.

MURDERED IN HIS ROOM.

Circus Fakir's Head Crushed With a Hatchet—Robbery the Cause.

LANSING, Mich., Feb. 11.—Rodrigue C. Lauseen, a somewhat dissolute Frenchman, about 25 years of age, was found murdered in his room over a feed store here. The walls of the room were spattered and the floor over which the murderer had dragged his victim was saturated with the latter's blood. The skull had been crushed with a hatchet or sharp piece of wood and the head was beaten almost to a pulp.

Young Lauseen was known as a circus fakir. He had quarreled with his father and seldom visited him. The proprietor of the feed store heard a pounding noise upstairs, but thought nothing of the incident. The murdered man had exhibited a roll of bills not long ago, but nothing was found excepting an empty bloody pocketbook lying on the floor.

Keenan of Pennsylvania; second vice president, E. N. Hines of Michigan; treasurer, James C. Tattersall of New Jersey.

A protracted discussion was precipitated and Mr. Oliver (Dem., New York city) introduced a substitute calling for the impeachment of President McKinley for aiding in the election of United States Senator Hanna.

The resolution censuring Senator Murphy was finally adopted by a vote of 79 ayes and 68 nays.

Seven hundred dollars' worth of diamonds and all the money Mrs. Pyne had were taken.

Resolution of Hermion Lodge No. 41 K. of P.

That we give expression of our brotherly sympathy to the family of our departed brother that we commend them to the tender mercy of the All Wise One who doeth all things well.

CHURCH NOTES.

The revival meetings at the Methodist church are still increasing in interest and power. Many were unable to gain admission last night by 7 o'clock and the services lasted until 11 o'clock. Many came forward and confessed Christ and four united with the church. Evangelist Reed preached another powerful sermon which created great interest and brought conviction to many hearts. Let the unconvinced come tonight and occupy the front seats. Now is your time to be saved. Don't neglect it.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mis take the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

At druggist. Trial bottle 10 cents.

Hints to Young Photographers.

To reegee prints to a ferrotype plate in order to make a gloss finish, have the plate perfectly clean and free from grease; it is better to wash it with soap and warm water each time it is used. Turn a little benzine on the surface of the plate and rub it thoroughly with a soft cloth, repeating the operation if the plate looks streaked. Let cold water run over the surface of the plate and then lay the wet prints face down upon it, and roll them down with a rubber roller until all moisture has been forced out. A piece of blotter should be placed over the picture to absorb the water. Before the prints are toned they can be trimmed, and before they are removed from the plate a coat of thin paste can be applied to the back, and they can be taken from the plate and mounted at once. If they are mounted dry, a thin coat of paste should be applied to the back of the picture, but if they are to be burnished after mounting, they may be damp when mounted. Harper's Round Table.

During February Harper's Bazar will begin a clever new department, in which the affairs of the day in New York and other cities will be lightly touched upon in bright and sparkling paragraphs. This department will be conducted by a lady whose name will not be given. Mrs. Sherwood in her Types of American Women, will write concerning "The Little Miss." ABLE PRACTICAL JOKE.

It Created Considerable Excitement in a University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London, by special, arriving at Cambridge station about 1:10 o'clock. Be prepared with escort and reception as far as time allows."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public behind hand. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hook they might have lived in literature.

Greeks as Fighters.

Smolenski had placed a battery of mountain guns on a plateau overlooking the village of Velestino, and along the base of this plateau was a battalion of Evzones, sheltered by the position of the ground and by intrenchments. The battery on the plateau played on the Turkish advance with great effect, and the order was given by the Turkish commander to charge it. The Turkish infantry swung clear, and the cavalry, led by a young officer, came on in column, first at the trot and then at a swinging gallop. It seemed a mad undertaking for cavalry to charge a battery of well served artillery planted on the crest of a long, steep slope.

The brave horsemen were met with salvos of shells which plowed through their ranks. Then suddenly uprose the Evzones from their partially hidden cover and poured upon them volley after volley. No troops could withstand such fire, and, completely broken, the Turkish horsemen turned and sought shelter in the woods in the neighborhood of Rismylos. — "With the Greeks in Thessaly," by W. Kinnaird Rose.

You Bet It Has.

"What has this Democratic free trade congress done?" asked the rural stump speaker in strident tones of indignation. As he paused for a reply a man with a big double bass voice answered, "It has done the American people." — Washington Star.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases.

It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the men of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.
